LUXURY FIFTH WHEELS

BUILDING OUR CUSTOMERS' DREAMS

# RVs as unique as the people who call them home

At New Horizons RV, we don't build cookie-cutter, assembly-line units. We craft custom luxury fifth wheels with full-time RV living in mind, with quality construction that delivers decades of value.

"We own a 2016 Majestic. Eight years later and structurally, our coach has held up great! We've had no leaks, no electrical issues, no plumbing problems and no structural problems. Overall, we have spent very little time in service."

— Ed & Teresa Haagsma

## Chassis

The quality construction of your four-season RV dream home begins with the foundation. Most RV manufacturers buy their chassis from a third party, but we build each one ourselves, making them bigger and stronger than anything else out there so they last a lifetime.

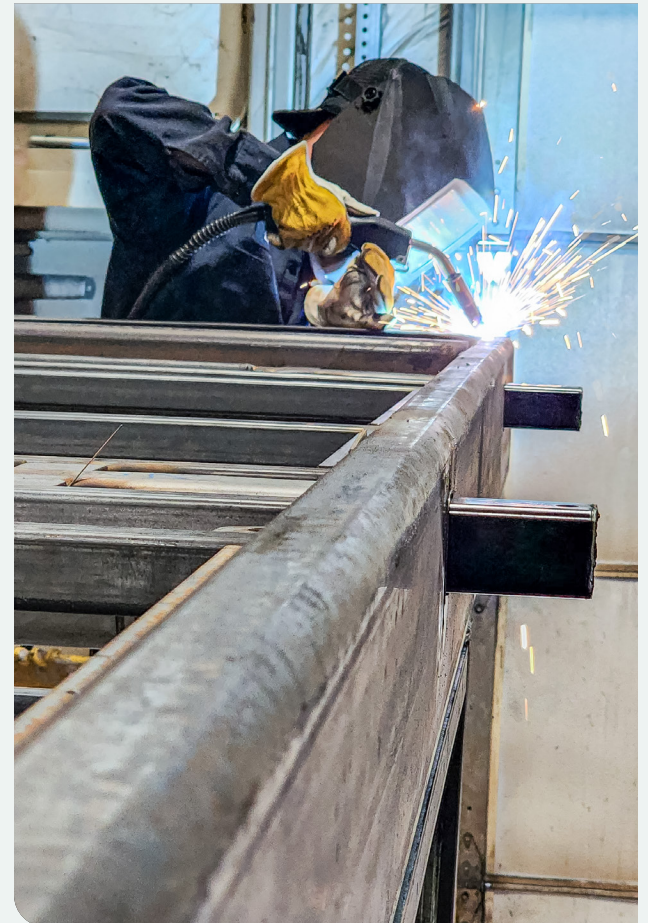

**Custom built** — constructed in our plant from American steel to match your floor plan.

**Strong and durable** — made with both a 12-inch I-beam and a 2 x 6-inch box tube.

**MORryde IS Suspension** — with disc brakes provides an unbelievably smooth ride and plenty of stopping power.

**Automatic leveling** — our chassis is strong enough to fully level with only 4 hydraulic legs. Each leg is rated at 17,000 lbs., with a combined 64,000 lbs. lifting capacity.

**Hydraulically driven slides** — more reliable and easier to adjust than electrically driven ones.

## The Shell

Our wall, floor, ceiling and slide structure all employ a tried-and-true lamination technique, using welded aluminum, Dupont Styrofoam Brand XPS, and quality gel-coat fiberglass. One of the greatest features of using high density foam insulation is that it will never settle and is also waterproof!

Many manufacturers choose to use “thin wall” aluminum for their structure, saving on weight and cost. At New Horizons RV, we weld our thick-walled aluminum, creating a superstructure that will last decades.

Our shell is skinned with a gel coat fiberglass, finished off with a 4 color, triple clear coated full body paint job. Logos are also painted so there is no need to worry about fading or cracking decals!

## Craftsmanship

New Horizons cabinetry is meticulously crafted in house with solid cherry or maple face frames, embodying a commitment to enduring quality and refined elegance. Boasting 6 different finishes, and multiple profiles, we are sure to find a combination that fits your taste.

High-quality wiring is expertly loomed, color-coded, and meticulously labeled to ensure both safety and efficiency. This attention to detail not only simplifies installation and maintenance but also enhances reliability, making troubleshooting straightforward. With each wire carefully organized and clearly identified, our wiring system reflects a commitment to precision and excellence, ensuring that every connection is as robust as the coach itself. All lighting interior and exterior is LED, offering lower energy consumption and greater longevity.

At New Horizons RV, our plumbing system offers optimal performance and durability with a high-quality manifold, PEX and PVC piping. This setup ensures efficient water distribution, easy control and maintenance, with flexible corrosion-resistant materials. It guarantees consistent flow, minimizes leak risks, and simplifies future upgrades, blending innovation with practical design.

New Horizons backs up the skill and quality that we build into each RV with a two-year “hitch-to-bumper” warranty. The quality of the materials we use and our skilled work force help to reduce the need for warranty repairs. When there is a problem, we like to see it corrected as quickly as possible and with as little inconvenience to the owner as possible. New Horizons RVs are built with the full time RVer in mind. If you choose to use your unit as your home, no problem! Our warranty includes full-time use.\*

# Majestic

At New Horizons RV, we work with you to blend customizations and personalization with proven engineering concepts in a collaborative process that balances creativity with practicality. The goal is to bring your unique vision to life while ensuring that every modification enhances the coach's performance, safety, and longevity. By combining your personal style and preferences with industry-leading engineering, we create a final product that is both tailored to your needs and built to withstand the rigors of the road. This partnership ensures that the finished fifth wheel is not only a reflection of your personality but also a showcase of smart design and reliable craftsmanship.

In a sea of competitors, New Horizons stands out for our superior build, combining a robust structure with top-tier materials to ensure longevity and reliability. The Majestic offers customized floorplan lengths ranging from 35' to 47', with no slides up to six! Boasting the industry's highest quality solid core Dupont insulation, standard dual pane windows, and cutting-edge heating and cooling technology, our definition of "four seasons comfort" ranges from -10 to 110 degrees Fahrenheit! A quality fifth wheel is an investment in enduring comfort, reliability, and a seamless blend of form and function. In a crowded market, New Horizons shines with a brilliance that competitors can only aspire to.

## WHERE LUXURY AND QUALITY COLLIDE.

Features available in our Majestic models include standard cedar-lined closet and hamper, 50-inch TV in living area, and a residential stainless steel refrigerator. Some of our most popular upgrades include residential appliances, granite countertops, and wine racks.

From real wood cabinets to solid surface countertops to residential furniture, quality materials ensure your year-round comfort.

Our pantry features pull-out shelves and an electrical outlet inside making it a great place to stow kitchen appliances.

# TOY HAULERS

Hauling your toys doesn't mean you have to sacrifice quality or luxury. Whether you're a motorcycle enthusiast, love hitting the trails on an ATV or dirt bike, or you enjoy hosting parties and entertaining, a New Horizons toy hauler will be the perfect addition to your lifestyle! Our toy haulers can be built with your unique ideas in mind. With garages from 5 to 16 feet deep, we can build the fifth wheel for whatever toys you're hauling — and still have plenty of living space. The garage space can also include extra beds, a dining area, cabinets and more — all fully insulated from the flooring and side walls to the roof.

Personalize your coach with a genuine tile backsplash.

Drawer style dishwasher is an option available on all models.

Optional solar arrays, offer off-grid charging capabilities.

We give great attention to detail in our safety-minded approach to electrical wiring.

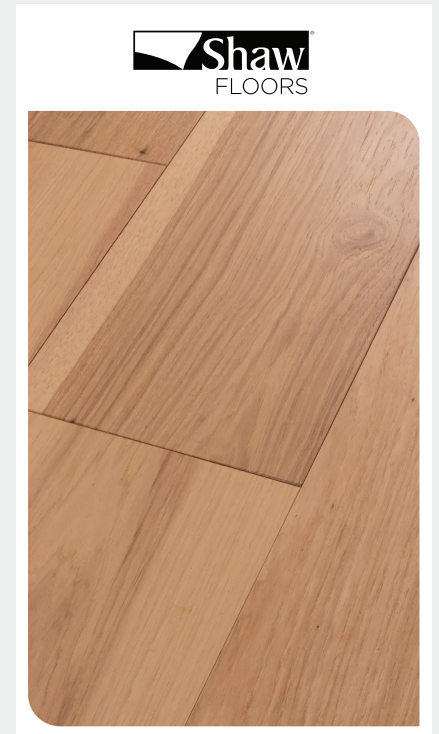

Firefly Integrations touch screen panel provides controls for lighting, tank monitoring, awnings, slides, and heating and air-conditioning.

Optional onboard generator runs on your choice of LP, gasoline or diesel.

Keeping your RV cool doesn't mean listening to a noisy air conditioner anymore. The mini split system is whisper quiet and energy efficient. Its heat pump capabilities are perfect for those cool autumn and early spring nights to help save on valuable propane.

Choose from our 6 choices of Shaw engineered hardwoods, featuring an advanced water resistant barrier that repels moisture the instant it strikes the surface, protecting your floors from the rigors of everyday RV use.

Utility center's residential manifold water system includes shut-offs for each fixture, black and gray tank flush-outs and dump valves.

Sturdy and lightweight entry steps stay clean and free of travel damage because they are housed inside the unit during transport.

# NEW HORIZONS SERVICE CENTER

SERVICING ALL MAKES AND MODELS TO GIVE EVERYONE A TASTE OF NEW HORIZONS LUXURY AND QUALITY

## Revolutionary FlexArmor eliminates roof leaks

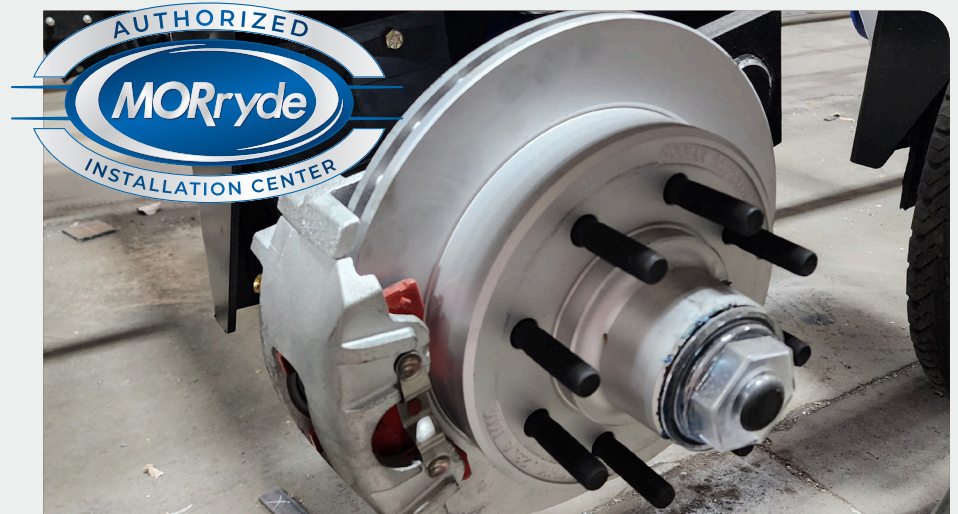

*With FlexArmor Roofing, you'll never have to reseal your roof again!*

Known as the Original Sprayed RV Roof, FlexArmor combines spray polyurea technology with RV construction to create a seamless sprayed RV roof.

Existing caulk is completely stripped and all exterior components removed. A certified technician applies a patented spray that dries in 6 seconds and is three times thicker than typical RV roof material.

Removing caulking joints on an RV roof eliminates the potential for leaks, so FlexArmor Roofing comes with a no-leak transferrable warranty good for the life of the RV. Your roof will never need to be resealed again.

For more information, contact the service department at 785-238-7575 to schedule an initial inspection.

## MORryde protects your RV while you ride in comfort

*Smooth out your ride with an upgraded suspension.*

Virtually any travel trailer or fifth wheel will benefit from the MORryde Independent Suspension System. It replaces your current axle/leaf spring setup to reduce stress on the frame and protect your trailer from road shock.

The MORryde system provides an enhanced travel experience with smoother towing. Up to 5½" suspension travel results in improved control and handling while reducing vibration over the roughest roads.

Installation of the MORryde Independent Suspension System includes upgrade to disc brakes and computerized alignment.

RV owners should allow approximately four weeks between initial evaluation and installation appointment. Axle replacement and alignment take approximately two days. You may stay in your coach overnight during installation.

# THE NEW HORIZONS EXPERIENCE

Experience the unmatched quality of personalized craftsmanship with our small company. We create customized coaches one at a time, ensuring a level of excellence that production-line units just can't achieve.

When you choose New Horizons, you buy directly from the manufacturer and stay in constant communication with us throughout the entire production process. Your journey culminates in a unique three-day orientation, where you live in your unit on site while learning the ins and outs of your new home.

## Get your journey started here

Build an RV that's all your own by visiting our website and clicking the "Build & Price Tool" — or just scan this QR code. Choose the model, floor plan and options that suit you best and you'll see a preliminary estimate. One of our product specialists will review and provide the best selling price on the model you choose.
