

On the Horizon

Volume 1

New Horizons RV Newsletter

July 2017

Welcome to the first edition of our new newsletter 'On the Horizon'. Exciting changes are taking place here in Kansas and we can't wait to tell you about them.

May 26, 2017 Press Release

New Horizons RV Corp., manufacturer of quality, fifth wheels in the industry, recently appointed Bryan Tillett chief executive officer of the company. Bryan replaces owner Phil Brokenicky who passed away December 31, 2016, from a brief but courageous battle with cancer.

"One can only appreciate the vision Phil brought to New Horizons in making our fifth wheels the finest available. He spared no expense and accepted nothing short of flawless effort," said Tillett. "I personally admired Phil for his character, family values, and concern for always doing the right thing.

Tillett came from a 36-year career at Peterson Industries where he began as a welder, purchasing manager, and eventually shared ownership and served for 19 years as president, until they closed their doors in 2015.

"Bryan's skillset has been a godsend to us all," said Vice President Cole Brokenicky, Phil's son.

"Being a small family owned RV manufacturer in Kansas has unique

challenges" said Tillett, "but the opportunity exists here to make New Horizons more desirable to those buyers who truly want the finest fifth wheel available at an affordable price. I look forward to carrying on Phil's legacy."

2018 Summit

We are excited to announce our fully redesigned Summit line for 2018. We have taken suggestions from many different customers to put together a unit that is not as tall, not as heavy, and not as

expensive as our Majestic line! We have 8 different floor plans, ranging from 34' to 44'. Most floor plans offer multiple bathroom layouts. Upon inspection, you will be hard pressed to find the differences from our Majestic line. To reduce costs, and lower our selling price, we have identified areas that we are able to manufacture this unit with more efficiency, without sacrificing the quality that is expected from a New Horizons fifth wheel.

We'll be doing a full walk through in early August when we get the unit wrapped up. The first trade show you can see this new unit at will be the Hershey RV show, in September. Full specs and options will be available this month if you would like to explore putting together a price quote for a new Summit build.

Rollin' On TV

June 29th Rollin' On TV was here at our facility to do an interview with Cole for an upcoming TV show. This will be a 30 minute show about New Horizons RV. Dates and stations will be released at a later time.

Receptionist

Many of you may already know that there is a new face in our front lobby. We welcome Erin Usher to our New Horizons' family.
